

PE and Sports Premium
Statement 2013 - 14

Sports Premium Information

The Government is providing funding of £150 million per annum for academic years 2013/14 and 2014/15 to provide new, substantial primary school sport funding. This funding is being jointly provided by the Departments for Education, Health and Culture, Media and Sport, and will see money going directly to primary school Head teachers to spend on improving the quality of sport and PE for all their children.

The sport funding can only be spent on sport and PE provision in schools. OFSTED will play a significant role in ensuring that schools target this funding in areas which will lead to clear outcomes in raising standards and opportunities in PE and school sport for all children throughout the Primary phase. All schools will receive funding for the next two academic years.

Purpose of Funding

Schools will have to spend the funding on improving their provision of PE and school sport, but they will have the freedom to choose how they do this.

Physical Education and Sport

We have had a very positive partnership with our local primary and secondary school as part of a local cluster. We have further developed this by employing a secondary and primary teacher to provide a range of provision in the local area including:

- Staff training in Physical Education – Providing INSET training throughout the year
- Pupil additional training tri golf, young leaders training

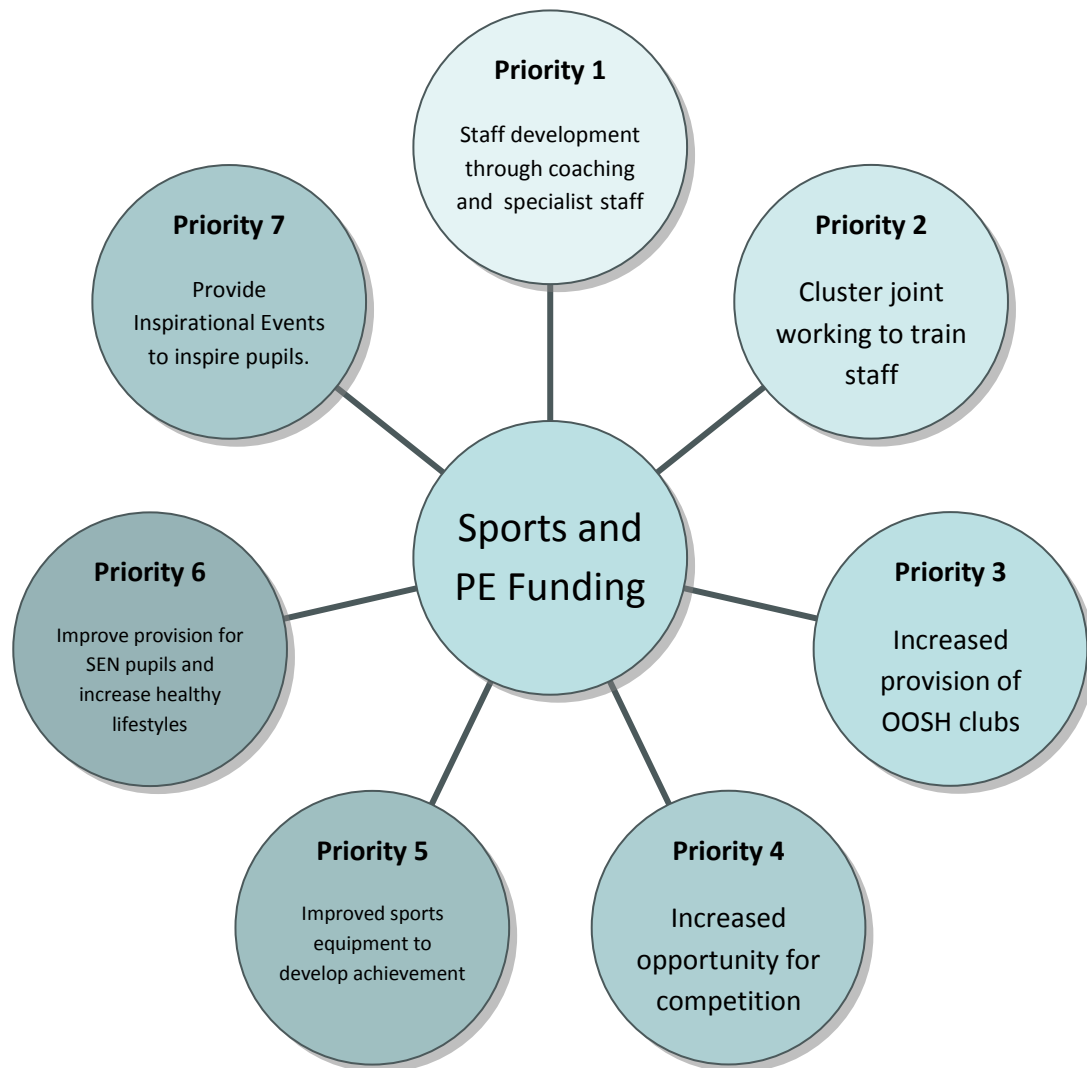

As part of this package we also provide many and varied opportunities to participate in competitive sport including, cricket, gymnastics, hockey, tennis, rounders, multi skills, football, athletics.

In addition to this staff have been provided with additional training on a weekly basis through the provision of a sports coach delivering and modelling good practice to all pupils in school. In addition to this we have provided additional OOSH (Out of School Hours) clubs which is intended to increase participation in sport this has included, cricket, gymnastics, football, rugby and hockey.

We have also increased the access to competitive sport by providing additional opportunities within and out of school. We have provided a targeted swimming programme which is intended to ensure all children can swim 25m by the end of Year 4.

We have increased gymnastic equipment to increase achievement in this area and improved local sports club participation in addition to improved engagements in school sport.

We have developed a two year strategy which prioritises the following:

Funding Allocation Sept 2013 – April 2014

£5,038.00

School Improvement Plan

Priority	Action	Impact
1 Staff development through coaching and specialist staff	Staff INSET: Gymnastics, Hockey, Tennis Bowling Club training – Year 5 /6 and staff	Cumbria County Finals – Gymnastics KS2 Cluster Representation at Area Finals – Year 3/4 Hockey Year 5 – Bowling Club Training and Competition
